Suicide at Pineville.

Moore Logan, Jr., of Pineville, committed suicide at that place Sunday afternoon by taking strychnine. It is reported that he went behind the counter in one of the drug stores and swallowed the poison and then drawing a pistol defied anyone to come near him until it had time to take effect.

He soon fell unconscious and lived until about ten o'clock that night. A telegram was received by Assistant Mike Inspector Perry V. Cole, of this city, that evening asking him to send his oxygen pulmotor, with the hope of administering artificial respiration but he did not regain consciousness after taking the poison. He was the son of D. B. Logan, former Sheriff of Bell county and no motive is known for the deed.

SAD ACCIDENT

John Cooper, a young man living on Indian Creek of this county, was struck by lightning last Friday afternoon and killed suddenly. Two of his younger brothers were with him at the time and were shocked although both recovered.

Mr. Cooper, with his younger brothers, were gathering sarsaparilla and he had placed a rail up against the tree and was standing upon it breaking off the limbs and throwing them down to his younger brothers when the bolt came and struck him passing through his body killing him instantly.

He was a prominent school teacher in this county and had a wide acquaintance and a large number of friends, who were shocked at the sad accident.

For several months past he has been our correspondent from Indian Creek, and we knew him to be a fine young man. To his bereaved parents and relatives we extend our sincere sympathy.

Exit Roller Skates

After repealing the ordinance several weeks ago, which prohibited skating on the streets, the City Council again passed an ordinance prohibiting it last Friday night and this ordinance goes into effect today. It was found that at the rate some of the youngsters were going that it was only a matter of time until some serious accident would result and consequently the old law goes into effect.

The Advocate has been opposed to this past time for some time because it is dangerous to the pedestrians and because some of the skaters absolutely ignored the rights of anyone who was not on roller skates. On account of the little girls we regret that their amusement is past and had the boys used the same precautions there would have probably been no agitation against it.

What Barbourville needs is a place for youngsters to skate and enjoy themselves without endangering the lives of people walking along the streets. In many of the cities and towns the city owns and controls public play grounds. Why not Barbourville? At a comparative small outlay a nice play ground could be purchased and within the city limits. We have the money and owe nothing, so why cannot we be progressive and have the things that the children want? In recent months we have heard a great deal of progression, so let us progress along this line.

Her Recitation.

"Put some spirit into it, child," shouted the father, who is an actor. "Make some gestures. What is she reciting, anyhow?" he demanded of his wife. "She won't need any gestures with this," retorted the latter. "She is reciting the multiplication table."

AND IT SO HAPPENED

Some two years ago a suit was brought against F. D. Sampson in the United States Court by the R. O. Campbell Coal Co., of Atlanta, Georgia, in which it was alleged that Judge Sampson was indebted to that Company in the sum of \$49,000.00.

This suit and the purpose of bringing it at that time by lawyers for this corporation was discussed very extensively both in the newspapers and on the stump in the campaign then pending in this district for the election of a Circuit Judge. It was charged by Judge Sampson and his friends that the suit was brought against him for political effect. The case was never tried. The public generally understand that, and still there are occasional questions asked as to the outcome of this lawsuit. It appears that there are some people who are not yet informed of the fact that the suit has been dismissed, the plaintiff Company paying all the costs. It happened just as the Advocate told its readers it would happen, that the suit was born in that campaign and kept alive for a purpose and that its usefulness would be lived out at the close of the campaign. We were right in this prediction and we now publish this fact for general information.

TO THE VOTERS OF KNOX COUNTY:

I hereby announce my candidacy for the office of Superintendent of Schools, subject to the action of the Republican party in the General Primary, August 2nd, 1913.

I have been urged to enter the race, by citizens from all parts of the county, and feel confident that I can win.

I hold a State Certificate, and have been teaching in the public schools for a number of years. I am acquainted with the management and needs of the public schools, and if elected, will do everything in my power to uplift the standard of education.

My people have been citizens and tax-payers of Knox county ever since it has existed as such, and none of them has ever held a county office.

Your vote and influence will be long and gratefully remembered and appreciated.

Very truly,

W. W. LAWSON

Health Exhibit Car

At Frankfort, Ky., June 5, 1913, the meeting of the Kentucky Tuberculosis Commission, final arrangements were made for taking over the Health Exhibit Car, which was run to a great many towns in the State a year ago. The car is now being altered, and new exhibit is being installed. In the course of ten days the car will start on another trip through Kentucky. The Commission hopes to keep the car on the road, at least, two years, and reach, if possible, all the available points in the State.

A committee of three was appointed to meet at the Capitol next Monday, and engage one or more representatives to travel with the car and explain the exhibit.

J. S. Miller for County Judge

TO THE VOTERS AND CITIZENS OF KNOX COUNTY:

I am a candidate for the office of County Judge of Knox county, subject to the action of the Progressive Party at Primary Election August 2, 1913.

I was born, raised and have all ways lived in this county. I was elected and served one term in this capacity and desire to thank all the citizens of Knox county for that honor conferred on me. I submit my record as County Judge to you for your careful investigation and consideration. I promise if nominated and elected to make you a much better officer this time than before. I feel sure I can do this because I learned a great many things pertaining to the office of County Judge in four years that I did not know and some of them are very important. I will fill this office if elected with honor to the county and credit to myself.

I solicit the support of every man, woman and child in the Grand Old County of Knox.

Yours truly,

J. S. MILLER.

Keep 10,000 Fleeces Fifty Years.

Ten thousand fleeces, which have been stored for 50 years in a big Lincolnshire granary with slanting shingles to prevent them from touching the brickwork, have been purchased by T. W. Mays & Sons of Bourne, Lincolnshire. The fleeces were the property of the late Sam Gooseman, a North Lincolnshire agriculturist, who died last autumn. They were in splendid condition.—London Mail.

Arsonist That We Eat.

It is known that arsenic exists normally in the tissues of the human body without doing harm. It is a constituent of peas, almonds and beans. Fresh lettuce, though rich in water compared with almonds and beans, reveals scarcely less arsenic. The foodstuff poorest in arsenic are the banana, chestnut and look.—Harper's Weekly.

NOTICE

Change in Roadway

On the 20th day of June, 1913, there will be a petition filed for a change in the county road on Little Indian Creek, and described as follows:—

Beginning on a beech and sycamore near Lae Carter's house; thence running with said Carter's fence and the old County road to or near the ford of the Creek.

BASEBALL GAME

An extraordinary game of baseball was played in this city last Saturday between the town team and the team from Warren, in which the latter team was shut out without a hit or run and none of them reached first base. McDonald pitched one of the best games of his career and was given errorless support. This is the first time that this feat has ever been accomplished in this city.

CARD

TO THE VOTERS OF KNOX COUNTY:

I am a candidate for the office of County Attorney subject to the action of the Democratic voters as expressed in the Primary Election, Aug. 2, 1913.

In announcing for public office it is customary to do so through the county newspapers.

In doing this I shall state a few facts in regard to my life so as to give you an idea touching my qualifications for the office of County Attorney. I was reared on a farm and have always lived in this county. I received my early training in the Public Schools; later, I attended school at Barbourville, Williamsburg and State College at Lexington.

I taught in the Public Schools of the County for several years, studied law and was admitted to the bar. I have been an ardent and enthusiastic student of history, law and literature for the last twelve years and have been deeply interested in the questions pertaining to the needs of the people of Knox County.

I am seeking this office because I feel that I am qualified for the place and able to give the county an efficient administration.

If elected I promise to honestly and faithfully discharge the duties of the office and will at all times work for the upholding of Knox County.

Faithfully yours,

THOS. E. SASSER.

NOTICE!

All candidates desiring to run for office must go on the ballot by petition, which shall contain not less than three nor more than ten per cent of the total vote polled by the political party of which he is a candidate at the last general election. Separate petitions must be circulated after May 1st.

Any person desiring a set of petitions can secure the same at this office at reasonable prices.

We have them printed and in proper legal form, ready for circulation.

CHAT OVERHEARD AT LOCAL STORE

Two Men Discuss the Present Schoolbook Law.

BOTH AGREE IT IS UNJUST.

To Have the County Authorities Select
the Children's Schoolbooks Often
Means a Hardship For the Parents
and a Loss of Valuable Time to the
Pupil.

"Say, Bill, somebody told me the
county is to select the children's school-
books for next year."

"Yep, that's what the fellers round
the courthouse say. It's a new law
again."

"No; I reckon they've gone back to
the one we had a good while ago.
Well, all I can say is I'm mighty sorry."
"Why? Don't you think our folks can
select good schoolbooks?"

"Course they can, but that ain't the
point I'm drivin' at. Look here, you're
leasin' a farm saine as I am, ain't
you?"

"Yep."

"Well, suppose you buy your boy an
girl a set of books for school next fall,
an' then 'bout the Christmas holidays
you go over into the Big Bull Skin
neighborhood just across the county
line."

"By George, I hadn't thought about
that side of the question!"

"Course you didn't, 'cause your kids
are just little fellers, an' they ain't
been to school long. But you wait 'til
you have a whole raft of 'em, like
I've got, an' then you'll understand
what a big thing it can be. I remem-
ber mighty well one time when I
moved from one county into another.
The move wasn't more than five miles
either, an' the new books I had to buy
for my four children cost me \$3."

"That's mighty tough, an' I don't
wonder you're kickin' about it."
"If the cost of the books was all of
it it wouldn't be so bad. I've got a
heap bigger kick comin' than just the
cost of the books."

"What be it?"

"What hurts me is that sometimes a
child'll lose a lot of valuable time.
There's my oldest boy. He's got to
sixteen, an' he's through the eighth
grade an' ready for the high school.
He'd been through almost two years of
high school work if he hadn't lost time
changin' from one school to another."

The man was silent for a moment
before he continued sadly: "The boy's
big for his age, an' now he's got to
work 'cause he feels he is too big
an' old to go through high school. The
changin' round means that my boy
won't make a high school education like
he planned to. Just the other day I
saw in a paper where the average pay
for the man who had only gone through
the eight grades was almost \$400 less
than that of the feller who had had a
high school course. If that's so my
boy'll stand to lose almost \$800 in
hard money in the next twenty years
of his life. He'll lose enough through
the changes in his school to buy him a
first class farm."

The men were silent again for a few
moments. At length one spoke up:
"Kinder strange how all of us fellers
talk an' plan how things ought to be
run at Washington," he said. "We
talk of who should be president an' all
that. An' we won't take the trouble to
try to straighten out a schoolbook law
in Kentucky that means money out of
our pockets every time we move an
money out of our children's pockets for
the rest of their natural lives."

"Say, let's all agree to watch the
schools just a little bit, an' let's get
busy with our next legislature an' see
if us fellers that stand between the
plow handles an' feed folks can't have
things fixed to suit our pocketbooks
an' to make it better for our children."

The New Schoolbook Law.

A strong effort is expected to be
made at the next session of the general
assembly to amend the textbook law,
possibly restoring the system of state
selection. The present law provides
that each county shall choose its own
textbooks through a commission com-
posed of a member of the county
board, a member of the board of ex-
aminers and a county school principal.
The old contract will expire next year,
and as no selections have ever been
made by county commissions those in
favor of state selection are desirous
of securing legislative action restor-
ing it before the county commissions
have a chance to act. Under the old
state system the county judges, county
superintendents and county attorneys
voted on the textbooks and a majority
ruled. Some form of legislation will
be considered by the Kentucky Edu-
cational association at its meeting in
Louisville, April 30, and probably a
draft of the measure favored by a ma-
jority will be prepared for submission
to the general assembly. Editorial

HOW TO ECONOMIZE.

The keeping of lemons in the house-
hold is a problem to many. Some ad-
vocate dropping them in water and
renewing the water once a week; but
the plan of packing them, stem end
down in sand, just as one does eggs,
keeping them from touching each other,
is the best one yet. They will
keep for months, provided they are
not softening when put into the sand.
A supply of lemons is a great con-
venience, and even the waste of two
or three is quite an item in the course
of many buyings.

Save the old newspapers, and when
sweeping day comes if not fortunate
enough to have a vacuum cleaner,
wet the paper, tear in small pieces
and sprinkle over the floor, before
sweeping. The paper holds the dust
and keeps it from flying about.

Save bits of soap, toilet and wash-
ing soap separately, and when a suffi-
cient amount of pieces are gathered,
cover with water in a sauce pan and
stand on the stove to melt. When
melted, pour into molds and have a
new cake of soap.

Old gas mantles make good silver
polish, used with a damp cloth.

Ice cream that is melted may be
used for various dishes if not wanted
to refreeze. It may be used in cake,
leaving out the milk and using less
sugar.

Melted chocolate ice cream, to
which is added a little gelatine and
a few chopped nuts, makes a delicious
dessert.

Hot water should never be thrown
away, as it is highly nutritious. It
can be used as a foundation for soups,
is a fine drink for an invalid, with the
addition of lemon juice and sugar,
either hot or cold. Some housekeep-
ers use it for stiffening old laces.

Save paper bags for slippin' over
the lamp chimneys, to keep them
clean. Use the bag as a mitten when
blackin' the stove. It keeps the hands
from getting soiled, and saves many
brushes.

Wrap cheese in a cloth dampened in
vinegar to keep it from molding.

If a whole cheese is cut, it may be
covered with melted paraffin and
well wrapped, or the cut surface may
be spread with butter to keep it from
drying out.

"BETTER THAN THE BEST OF ALL OTHERS"

SENT ON FREE TRIAL, Express Prepaid

Look at the illustration of our New Fox Visible Typewriter, shown above, and compare it with any other typewriter you have ever seen or used. Here is a really VISIBLE typewriter, note that the printing point is on top in plain sight, and that the type bars rise from wheels, they are laying and strike the paper in full view of the operator, and in direct line of vision, and that all of what you have written remains in full sight until the paper is removed from the typewriter. Compare this with those old style typewriters, that some firms are still advertising as visibles, but on which the printing point is beneath the typebars, and you have to look down into them—or between them—to see what you have written. Touch a key on the keyboard and you change the color of your writing instantly from black, blue, or purple to red. Press the Tabulator Key at the left (in front) for paragraphing, writing the complimentary closing, etc.; for all kinds of billing. At the right (in front) is our Back Space Key. This moves the carriage backward for making corrections, or putting in punctuation. This key also enables the operator to erase a word of three letters and write one of four in its place. Press the Stencil Key shown at the left (front) for making stencils from which thousands of duplicate letters can be made. Four rows of keys reduce the shifting one-third. The right Shift Key locks automatically for writing in all caps. A positive automatic Line Lock prevents you from writing beyond a predetermined line. The ribbon travels in a "zig-zag" line—not straight across from spool to spool as on others—thus using all the ribbon and making it last three or four times as long as on other typewriters. The ribbon automatically re-winds itself from one spool to the other without any attention from the operator. Carriages are interchangeable, and run on ball bearing tracks. Platens are removable, so that both a hard and soft platen can be used on the same typewriter. Extremely light touch. "No falling leaf" is lighter than the touch of the Fox Typewriter. Choice of Elite, Pica, Condensed Roman, Medium Roman, or Italic Types—we carry more than three thousand special type in stock, of our own manufacture, and can furnish keyboards for any language. The Fox has an easy, almost noiseless action, is very durable, and is sent complete with cleaning outfit and metal cover with hard wood base. This is the Fox, the typewriter we manufacture—this is the typewriter that we will send to anyone anywhere in the United States on Free Trial, all express charges fully paid—no "red tape"—no delay—no obligation to buy. If purchased after trial you can pay a little down—whatever you can spare—and the balance in small monthly payments.

Reader, in all sincerity we can honestly say this proposition has never been equaled by any other typewriter company, and all we ask is that you write us TO-DAY—NOW—giving us your name and address so we can send you our catalog and write you personally about our typewriter and Free Trial offer.

BARBOURVILLE, KENTUCKY

THIS IS 1913.

Would you plant and harvest as in
1850?
Would you light your house as in
1850?
Would you cook over the fire as in
1850?
Would you use a "muzzle loader" as
in 1850?
Would you brand razorbacks as in
1850?
If everything on your farm and in
your home bears the mark of 1913 why
will you insist upon a school that was
planned in 1850?
If your children are to live and earn
a living in 1913 would it not be better
to give them a 1913 education?

"The wagon that stands up like the reputation of its makers"

When you buy a Studebaker wagon you buy
a wagon that will last until you turn the farm
over to your son and he turns it over to his son.

One of the first Studebaker wagons ever made saw
constant service for thirty years, and we will gladly
send you the names of farmers who have in their
possession wagons that have been in constant use any-
where from 17 to 48 years—and there are thousands of
them. We are building the same kind of wagons today.

A Studebaker wagon is an investment that will give
you full return for your outlay. It is built on strong
iron, steel, wood, paint and varnish used in its construc-
tion are tested and retested to make sure each is the best.

For work, business or pleasure—for town or country
use—there is a Studebaker vehicle to fit your requirements.

Farm wagons, dump carts, trucks, buggies, surreys, run-
abouts, pony carriages, business vehicles of every description—
with harness of the same high standard.

Can You Doubt It?

When the Proof Can Be so Easily Investigated.

When so many grateful citizens of this locality testify to benefit derived from Doan's Kidney Pills, can you doubt the evidence? The proof is not far away—it is almost at your door. Read what a resident of Williamsburg, says about Doan's Kidney Pills. Can you demand more convincing testimony?

G. L. Pence, Attorney, Williamsburg, Ky., says: "I consider Doan's Kidney Pills worthy of the highest praise. We have used them for years and gladly confirm the endorsement I gave them several years ago. I had kidney trouble for a number of years and being given a box of Doan's Kidney Pills, I used them. They made a marked improvement. I can say that they are good for weak back and kidneys." If your back aches - if your kidneys bother you, don't simply ask for a kidney remedy - ask distinctly for Doan's Kidney Pills because that Mr. Pence had the remedy backed by home testimony. Simplify Life. I do believe in simplicity. It is astonishing as well as sad, how many trivial affairs even the wisest man thinks he must attend to in a day; how singular an affair he thinks he must omit. When the mathematician would solve a difficult problem he first frees the equation of all lacumbrances and reduces it to its simplest terms. So simplify the problem of life, distinguish the necessary and the real.—From Thoreau "Letters."
